# IATA Ruling - Effective 1 June

Please be advised of the following developments that may impact your travel programme:

Effective from the 1st June 2019, International Air Transport Association (IATA), are introducing a policy to allow airlines and travel agents to work together to ensure passengers receive the best possible experience during any event that may cause flight disruption. The new policy is designed to ensure that the passenger can always receive accurate and timely information directly from the airline.

As such, from the 1st June, IATA are mandating travel agents to enter a passenger's mobile phone number into a booking, or actively ask each passenger before the time of ticketing whether they wish to have their contact details excluded for each booking.

In order to facilitate quicker transactions and to avoid delays during ticketing which could result in price increases and/or loss of availability of seats, Atlas Travel will make mobile phone numbers mandatory for all passengers. Should your company wish to continue having mobile phone numbers as an optional field, you must contact your account manager and request this in writing.

1. Personal Details

Title, Name, Date of Birth, Email address. Name must be as per passport, Please include any middle name(s). \*Within this area you can also add an Out of office replacement and a Backup Approver if your company has an approval system set up.

After updating the details just click on Save at the end of each section. This action will not take you to the next step you can move between the menus by selecting or scrolling up and down the page on the right-hand side.

When selecting a title, we do not recommend selecting Dr. or Prof. as this might cause issues with some airlines where the Dr./Prof. title will be recognised as middle name.
